Sea Tel Coastal 14

The Sea Tel® Coastal 14 antenna features Hi-Definition reception that sets this lightweight antenna apart from anything in its class. Now smaller yachts can enjoy HD-TV at Sea. This attractive, compact 14" dish is perfect for yachts under 60 feet, with a wide coverage range while maintaining a compact size. Unlike the competition, the Sea Tel C14 features the ability to capture High-Definition programming and works with your HD receiver, with a classic, clean design and built-in GPS for fast satellite acquisition.

SPECIFICATIONS

- Min. EIRP: 50 dBW
- Dish Diameter: 35.6 cm; 14 in
- Radome Diameter: 39.4 cm; 15.5 in (22% smaller than the Coastal 18)
- Radome Height: 45.7 cm; 18 in (15% smaller than the Coastal 18)
- Antenna Weight: 10.4 kg; 23 lbs
- Power Requirements: 10-16 Vdc@3 amps maximum
- Operating Temperature Range: -20°C to 55°C
- Built-In GPS Provides Automatic Satellite Acquisition
- Ship's Motion +/- 25° Roll and +/- 15° Pitch
- Roll and Pitch Response Rate >25°/sec
- Azimuth Range - Unlimited
- Full Elevation Range 15° to 65°
- Circular Polarization
- Warranty: 2 years parts - 1 year labor
- Higher antenna efficiency, offering a greater range of reception further offshore and stronger signal strength than the competition.
- Small, attractive white radome with blue base.
- High-performance stabilization and satellite tracking even in inclement weather.
- Built-In GPS for fast satellite acquisitions.
- DVB (Digital Video Broadcasting) signal identification.
- Sea Tel's proprietary antenna control and fast-track signal lock software.
- North American programming & digital music channels.
- Supports single receiver with two or more TV's.
- Robust design using alloy steel bearings for pounding sea conditions providing sustained performance and reliability.
- Easy-to-install dome with 2-year warranty on parts; 1-year labor.
- HD Ready
