Sea Tel
Model 6004

Sea Tel's Model 6004 is the most powerful Ku-Band, DTH antenna with a greater range than other systems in its class. At 1.5 meters in dish diameter, the Model 6004 delivers crystal clear digital signals from satellite television providers around the world. Technically, the Model 6004 is one of the most sophisticated marine antennas in the world. Its state-of-the-art three axis, servo-stabilized system enhanced with CONSCAN tracking, provides reliable digital television and CD quality digital music while underway, even in the harshest marine conditions imaginable. Just ask the thousands of fishermen, deep-water oil men, ferry operators, work boaters, yachtsmen and sailors who rely on Sea Tel marine satellite antenna systems.

SPECIFICATIONS

- Antenna Dish Diameter: 1.5 meters / 59.1"
- Radome Diameter: 1.93 meters / 76"
- Radome Height: 2.06 meters / 81"
- Antenna Weight: 158.7 kg / 350 lbs. (including Radome)
- Predicted Antenna Gain: 44.2dB @ 12.5 GHz
- Minimum E.I.R.P.: 40.5 - 41.2
- European Antenna Polarization: Quad Linear
- U.S. Antenna Polarization: Dual Circular
- Type of Stabilization: 3-Axis Servo
- Ship's Motion: +/- 25° Roll and +/- 15° Pitch
- Roll & Pitch Response Rate: Unlimited
- Azimuth Turn Rate: 12°/sec
- Azimuth Range: 540° continuous
- Elevation Range: 0-90° (allows full clearance for roll and pitch at minimum elevations)
- Power Requirements: 70 watts at 110 or 220 VAC, 50/60 Hz.
- Power requirements do not include satellite receiver or your TV set.
- Power to the antenna is supplied by the antenna control unit.
- Simple Coax only installation
- 2-year warranty on parts; 1-year labor
- Ready for Multiple satellite selection
- Euro version HD ready/ US version requires HD converter.
