## ACTIVITY

### VARIOUS EQUIPMENT

Navigation charts (paper) ( D / I )

Navigation charts (software) ( D / I )

Electronics and radios ( D / I )

Instruments (compass, barometers, logs, automatic pilots, etc.) ( D / I )

Life-saving and safety (equipment for) ( D / I )

Misc. (please specify / max. 60 characters) ( D / I )

Telecommunication, satellite, marine electronique, TVRO, VSAT.

### SERVICES & OTHER SPECIALITIES

Refitting ( S )

Misc. services (please specify) ( S )

Installation and repairs: SEATEL, FURUNO, SPERRY, SIMRAD, TRANSAS.

### TRAINING - EDUCATION

Training ( S )

### Others/miscellaneous

EUTELSAT, TV system, informatique, Internet-at-sea.

## PRESENTATION:

Serving yachts since 1997, specialise in navigational electronics, TVRO, V SAT. EUTELSATMARITIME partner and exclusive importers, we offer sale, service

## AGC MARINE TELECOM

Place : QSP 017

### AGC MARINE TELECOM - AGC MARINE TELECOM :

number ONE in its domain

AGC MARINE TELECOM BASED ON THE FRENCH RIVIERA HAS SPECIALIZED IN NAVIGATION, TVRO, V SAT AND ALL ELECTRONICS FOR YACHTS AND CRUISE LINERS WORLDWIDE SINCE 1997. ALSO, WE ARE SEATEL DISTRIBUTOR, MAIN IMPORTER FOR FRANCE AND A EUTELSAT MARITIME PARTNER. AGC MARINE TELECOM IS NUMBER ONE IN ITS FIELD. This year, we celebrate 10 years in business. Our scope of supply includes sales, installation, repair and maintenance of antennas, telecommunication systems and navigation aids on board all vessels though specialising in super yachts, both in France and abroad. We also supply state-of-the-art TV, computers and Internet-at-sea systems on board. We are the main distributor and importer for France and the third in Europe for Sea Tel antennas and equipment for Satcom and TV. We continue to be the official integrator of the EUTELSAT maritime broadband. We install and maintain leading navigation equipment brands like Furuno, Sperry, JRC and Simrad. We sell and provide after sales service for TVRO and V-SAT Antennas. AGC Telecom has a very diverse client base including Shipping lines, Ferries and Passenger Ships along with yards like Chantiers Atlantique in St Nazaire and numerous yacht builders in Viareggio in addition to many owners and operators of private and charter yachts. We supply services and equipment to conversion and refit projects as well as new builds in yards from Germany to Dubai.

### AGC MARINE TELECOM - AGC MARINE TELECOM :

The 2406 is suitable for file & image transfer, video conferencing, email, VPNs, database backup.

DAC 2202 is 1 rack-unit in height (1.75"). Easy setup and maintenance with superior functionality.

The 2406 ANTENNA is the NEW 60cm Ku-Band maritime VSAT antenna for SCPC, broadband, hybrid networks.

Le NOUVEAU DAC 2202 est l'unité de commande d'antenne pour les Antennes de Série 06 configurées avec la L-bande DVB compatible avec un récepteur traquant, des interfaces de gyrocompas tant pour les numériques que la plupart de gyrocompas analogues, avec de nombreux ports de connectivité.

Built to Sea Tel's exacting standards for vibration, shock & EMC and for the vessels that require always-on broadband satellite; the antenna efficiency is better than 70% across transmit & receive bands.

The NEW DAC 2202 is the antenna control unit for 06 Series Antennas configured with L-band DVB compliant tracking receiver, gyrocompass interfaces for both digital & most analog gyrocompass, with many connectivity ports.
