## The 2406 ANTENNA: The Mediterranean Coverage

The 2406 ANTENNA is the NEW 60cm Ku-Band maritime VSAT antenna for SCPC, broadband, hybrid networks. Built to Sea Tel's exacting standards for vibration, shock & EMC and for the vessels that require always-on broadband satellite; the antenna efficiency is better than 70% across transmit & receive bands. The 2406 is suitable for file & image transfer, video conferencing, email, VPNs, database backup.

## The DAC 2202

The NEW DAC 2202 is the antenna control unit for 06 Series Antennas configured with L-band DVB compliant tracking receiver, gyrocompass interfaces for both digital & most analog gyrocompass, with many connectivity ports. DAC 2202 is 1 rack-unit in height (1.75"). Easy setup and maintenance with superior functionality.
